The Jefferson County Public Health Service Immunization Clinic Announces Online Appointment Scheduling

September 12, 2013, Watertown, NY~ The Jefferson County Public Health Service will begin taking appointments online for the Wednesday, September 18th Immunization Clinic. The online system, eHealth Scheduling, will save patients time by allowing patients to enter demographics into a secure online system and then scheduling an appointment at a convenient time.

The eHealth registration is open **today** for appointments beginning at the clinic on September 18, 2013 and for every Wednesday clinic thereafter. Even if you are not sure when you want to book an appointment, individuals can still sign up for an account at this time.

- Step 1: Go to www.jcphs.org and click on the ehealth link to register for your account. If you already have an account, just skip to Step 3
- Step 2: Check the email account you registered with and activate your account.
- Step 3: Log in to [ehealth](#) and make your appointment.

A tutorial to assist with registration and scheduling can be found at www.jcphs.org.

Immunization clinic appointments are available every Wednesday 12:30-3:30pm and are held at the Public Health Facility, 531 Meade Street Watertown NY. If you are unsure what vaccines you might be in need of try the JCPHS [online screening tool](#) or contact your health care provider.
